

# The North Cascades

a luxurious recreational retreat

**Fun Fact**  
North Cascades covers a total area of 505,000 acres and has over 300 glaciers in the Park Complex, more than any other park in the lower 48 states!

The North Cascades (noor-th cass-cay-des), known for its passive viewpoints is perfect to bring friends and family together in a comfortable natural setting. Wrap around deck and triple sliding patio doors allow you to bring that atmosphere inside as you step into this unique, exposed living room. An abundance of windows enlarges the house as well as offers that beautiful natural light to shine in. Full size bath is a great way to relax or get cleaned up after a busy day! The kitchen design allows plenty of room for seating as well as counter space to entertain guests. From the kitchen you can step into the master bedroom to rest your head on your queen size bed or reverse to get that midnight snack faster. Even enjoy the view from the bedroom with another spacious deck. If additional sleeping is needed, a loft area above the bedroom fills that need. The North Cascades is your comfortable mountain cabin!

## Unique Features

- 384 sq. ft.
- contemporary design
- triple wide patio door to bring the outdoors in
- side deck off the master bedroom
- multiple exterior finishes
- loft area
